H-1B Visas Expected to Exceed Cap in First Five Days

U.S. Citizenship and Immigration Services will begin accepting H-1B petitions on April 1 and expects to receive more petitions than the H-1B cap during the first five business days of this year's program. Federal legislation limits the amount of H-1B visas to 65,000 for fiscal year 2016, plus 20,000 more reserved for workers with a US master's degree or higher, for a total of 85,000. If USCIS receives an excess of petitions during the first five business days, the agency will use a lottery system to randomly select the number of petitions required to meet the cap. USCIS will reject all unselected petitions that are subject to the cap as well as any petitions received after the cap has closed.

USCIS used the lottery for the FY 2015 program last April when the number of visas requested exceeded the annual caps in the first week.

CONTRACTS AWARDED: Boeing Co., Ridley Park, Pennsylvania, was awarded a \$713,896,061 modification to a contract for 26 remanufactured CH-47F helicopters, four new CH-47s, and the option of building two more CH-47s, and provides for over and above appropriated funding and obligates long lead funding for Production Lot 14. Army Contracting Command, Redstone Arsenal, Alabama, is the contracting activity ... Northrop Grumman Corp. Electronic Systems, Linthicum Heights, Maryland, is being awarded a \$113,276,299 modification under a previously awarded contract to exercise an option for procurement of two additional Ground/Air Task-Oriented Radar (G/ATOR) low-rate initial production (LRIP) systems. The Marine Corps Systems Command, Quantico, Virginia, is the contracting activity ... Delphinus Engineering Inc., Eddystone, Pennsylvania, General Dynamics Information Technology Inc., Chesapeake, Virginia, Q.E.D. Systems Inc., Virginia Beach, Virginia, AMSEC LLC, Virginia Beach, Virginia, BAE Systems Inc., Norfolk, Virginia, Epsilon Systems Solutions Inc., Portsmouth, Virginia, and L3 Unidyne Inc., Norfolk, Virginia, are each being awarded contracts, with an estimated ceiling amount of \$90,687,638 for Delphinus Engineering Inc., \$89,860,189 for General Dynamics Information Technology Inc., \$87,002,697 for Q.E.D. Systems Inc., \$83,037,863 for AMSEC LLC, \$94,497,395 for BAE Systems Inc., \$94,646,444 for Epsilon Systems Solutions Inc., and \$96,342,264 for L3 Unidyne to provide engineering and technical services in support of the Navy Modernization Program which provides installation and technical services for hull, mechanical and electrical systems on U.S. Navy vessels and those of allied navies. The Naval Surface Warfare Center, Carderock Division, Ship System Engineering Station, Philadelphia, Pennsylvania, is the contracting activity ... Kollsman Inc., Merrimack, New Hampshire, is being awarded a \$73,400,000 contract for the Common Laser Range Finder-Integrated Capability. The Marine Corps Systems Command, Quantico, Virginia, is the contracting activity.

* See page column refers to the page number of a display ad with possible further information regarding the job openings and/or related requirements. Where Index is used, there is no display ad for that listing. The address and phone number of the firm with that job can, therefore, be found in the Index of Contract Firms in the back of each C.E. Weekly. The following feature of C.E. Weekly categorizes job openings by discipline. Please keep in mind that JobLines represent just a portion of the total number of openings published in this issue. There are many jobs appearing in display ads, which do not appear in JobLines.

SUBSCRIBER SERVICES

Hot Sheet of Available Contractors:

For unemployed subscribers (or those with layoff notices). We email your name, address, phone, email address, a link to your online resume, and job classification(s) to our advertising contract staffing firms.

Online Profile:

Every day, recruiters perform hundreds of searches of our resume database, usually locating multiple resumes that match their keyword search. Often subscribers have certain requirements that do not generally appear on their resumes. For example: Are you currently available, or are you working now and won't be available for a couple of months? ... What is the minimum rate you will accept? ... etc. Your personal profile allows you to make that information available to recruiters. It is critical that you keep your profile very current ... especially the status of your availability. This service is only as effective for you as the effort you devote to it.

My JobTracker:

Track your saved jobs and any follow-ups you've made to recruiters. All records in one place for your job searches, responses, and notes about the assignment. Our latest subscriber service ... and one of the most valuable!

EZjobs:

Subscribers can receive each day's new job postings for openings that match their pre-set keywords. Those listings will be emailed to you stating the name of the recruiting firm, contact information, and all the data we have about each job.

Resume Email Forwarding History:

Subscribers can track their resume forwarding history to see when and to whom their resume has been emailed from our website. This service tracks resumes sent by: job searches using E-Resume, individual resumes sent to any of our advertisers, and updated resume distribution.

Resume View Notification:

Every time your resume is viewed, downloaded or printed by a contract staffing firm ... we immediately email you a notification. Included in the email is the name of the firm, the recruiter's name (if known), keywords that the recruiter used to find your resume, and contact information. Keep in mind that we must have your current email address on file in order for you to participate in this service. Here, too, you may opt out this service if you choose.

Mail Forwarding Service:

You can have a permanent (or forwarding) address to guarantee yourself of constantly receiving your mail. If you are interested in using this service, contact our office for details. Email staff@cjhunter.com or call (425) 806-5200. Please Note: you must be a user of our Mail Forwarding Service if you put our address on your resume for contact information. Cost: \$10/month, charged to your account at the beginning of the month. If no mail is forwarded, this charge is refunded to your account at the end of the month. As long as you have a mail forwarding account active, you will be charged for the service only if we actually forward your mail at least once during a calendar month.

Free Email Account:

If you are a *ContractJobHunter* or *Contract Employment Weekly* subscriber who uses email a lot ... this subscriber service will probably be of interest to you. This service is free, as long as you keep your subscription current. Restrictions: Any single document (either sent or received) cannot exceed 500K in size; the total amount of space allotted to any subscriber is 5 megabytes; you may select your own personal email address. We suggest using your name (Example: john.doe@members.cjhunter.com).

Discussion Forums:

Subscribers can leave messages and questions for other subscribers on this board. Discussed subjects have included: Insurance for contractors ... overtime on full rate ... job locations ... pre-employment drug testing ... and lots of contractors looking for old friends.

Aerospace News – Boeing wins \$714 million deal for more CH-47 helicopters - Boeing Co (BA.N) has been awarded a contract valued at \$714 million for additional work on CH-47 helicopters for the U.S. Army, the U.S. Defense Department said on Friday. The contract, which runs through Dec. 31, 2020, covers 26 remanufactured CH-47F helicopters, four new CH-47s, and includes an option for two additional helicopters, the Pentagon said in its daily digest of major arms contracts ... **ViaSat receives \$525M loan from Ex-Im Bank to commission Boeing satellite** - ViaSat has closed a \$525 million loan from the U.S. Export-Import Bank

to finance the purchase of a Boeing-made communications satellite that will lift off in 2016. The funding will pay for up to 85% of the manufacturing cost for the ViaSat-2 high-capacity Ka-band communications satellite ... **Egypt commissions 43 power turbines from GE in \$1.7B deal** - GE Power & Water has won a \$1.7 billion contract with Egypt to provide 43 electric turbines that will add 2.7 gigawatts to the country's power grid, enough to provide electricity to 2.5 million homes ... **Boeing to decide this year whether EA-18G, F/A-18E/F programs will continue** - Boeing plans to decide this year whether it will continue production of its EA-18G and F/A-18E/F aircraft beyond 2017, as the company awaits an anticipated order from Denmark and continues its pursuit of an order from Kuwait. "I'm optimistic about extending production and building more airplanes, but you have to make a balanced decision about where to put all your eggs," said Boeing's Dan Gillian ... **Boeing, Saab test Ground Launched Small Diameter Bomb** - Boeing and Saab have completed three successful test launches of a jointly-developed Ground Launched Small Diameter Bomb. The tests, conducted in Sweden, demonstrated the capability to launch from the ground and access GPS satellites to find targets ... **B-1B bomber is cleared for Lockheed-made long-range missiles** - The B-1B Lancer is the first U.S. aircraft to be cleared for Lockheed Martin's Joint Air-to-Surface Standoff Missile-Extended Range product. The long-range missile will more than double the B-1B's missile range ... **USAF wants small, fully integrated JSTARS replacement** - The US Air Force will consider both US and international airframers to replace the Northrop Grumman E-8C JSTARS fleet, according to documents released on 5 March. The service also has confirmed its preference for a smaller aircraft than the Boeing 707-based E-8C. The move to accept international competitors opens the competition also to international aircraft manufacturers, including Airbus, Dassault and Bombardier, whose Global 6000 and Global 7000 would fit the bill. It also seems to give a leg up to competitors who are betting that a business-size jet will prove a more efficient and affordable replacement than would an airliner for the E-8C, which is based on a Boeing 707 ... **DOD, Boeing are working to hack-proof Little Bird unmanned helicopters** - The Department of Defense expects to have unhackable Boeing Little Bird unmanned aircraft in service within two years. Programmers are currently working to solidify the unmanned Little Bird's communications systems so they cannot be hijacked ... **United Technologies could spin off Sikorsky division** - United Technologies says it is considering spinning off its Sikorsky Aircraft division, though no timetable has been set on a final decision. Sikorsky makes the Black Hawk helicopter, and the division reported \$7.5 billion in sales in 2014 ... **Republic orders five more Embraer E-175s** - Republic Airways Holdings has ordered five new Embraer E-175s. The contract has an estimated value of \$222 million, based on current list prices. The aircraft will be configured in dual class with 76 seats and are expected to be delivered in mid-2016 ... **USAF to map out a strategy for buying new GPS satellites** - The U.S. Air Force is ready to map out the acquisition strategy for its next batch of GPS satellites, with bids expected in 2018, according to David Madden, executive director of the Space and Missiles Systems Center ... **USN study likely to recommend purchase of Boeing EA-18G fighters** - Boeing's EA-18G attack jets have become a likely lead contender after a U.S. Navy study on joint electronic warfare needs, though funding for the aircraft is uncertain. Rear Admiral Mike Manazir says Boeing must have some orders in place now to ensure availability for the future ... **First Italian F-35 rolls off assembly line** - Lockheed Martin has announced the final assembly of the first F-35 joint strike fighters to be made outside of the U.S. The AL-1 aircraft is the first of eight being assembled at Italy's Cameri Air Base ... **New space-cargo is system unveiled** - Lockheed Martin's new commercial cargo space-transport system for unmanned flights was introduced to the public this week. Jupiter and Exoliner are intended for launch atop Atlas V rockets to deliver cargo to the International Space Station in a five-stage process.

Daily Resume Distribution

When members first enter a new resume into our online database, you can choose to have us email it to all current advertisers. Recruiters select to receive all new resumes, submit keywords to receive only selected resumes, or receive no resumes at all. Each time you update your resume, you can once again choose to have us email your resume. *The default is set to not distribute the resume; only members who check the box for distribution will have their resume emailed.*
