Inmarsat selects MHI’s H3 vehicle to launch new satellite – Inmarsat has signed an agreement with Mitsubishi Heavy Industries (MHI) for the launch of its future communications satellites onboard the latter’s new H3 vehicle. The deal has made Inmarsat the first commercial customer to use the new H3 rocket, which is expected to make its first flight in 2020. As part of the new agreement, H3 is scheduled to start launching Inmarsat missions into space after 2022. MHI’s H-IIA rocket will be used to deploy the Inmarsat-6 F1, the first satellite in the Inmarsat-6 fleet. Built by Airbus Defence and Space, the Inmarsat-6 F1 is slated for launch in 2020.

Daily Resume Distribution

When members upload a new resume into our online database, they can choose to have us email it to all current advertisers. Recruiters select to receive all new resumes, submit keywords to receive only selected resumes, or receive no resumes at all. Each time you update your resume, you can once again choose to have us email your resume.

The default is set to not distribute the resume; only members who check the box for distribution will have their resume emailed.
