## **INDUSTRY NEWS** - *News of potential interest to anyone working in the contract industry*

**Boeing acquires US aviation app developer ForeFlight** — Boeing has purchased mobile and web-based aviation applications developer ForeFlight for an undisclosed amount. The companies did not disclose the terms of the transaction. Founded in 2007, ForeFlight has been working with Boeing for the past two years to offer Jeppesen's aeronautical data and charts on ForeFlight's mobile platforms. Jeppesen offers navigational information, operations planning tools, flight planning products and software. As a result of the acquisition, ForeFlight and Boeing will now integrate their offerings in a bid to provide innovative, expanded digital solutions to all segments of the aviation industry ... **SpaceX's new Crew Dragon spacecraft docks to ISS** — NASA and SpaceX have launched the first flight test of a new spacecraft that has successfully arrived at the International Space Station (ISS). The SpaceX Crew Dragon spacecraft lifted off on the company's Falcon 9 rocket from Launch Complex 39A at NASA's Kennedy Space Center in Florida. The Crew Dragon spacecraft became the first privately designed and operated spacecraft, which is capable of carrying people to visit the outpost. It carried a lifelike test device named Ripley, which is outfitted with sensors to provide data on potential effects on humans traveling in Crew Dragon. Crew Dragon has been designed to stay docked to the station for up to 210 days; it remained there for only six days, departing on March 8. The space vehicle is set to deliver more than 400 pounds of equipment and supplies to the space station. SpaceX plans to launch two astronauts this year under NASA's commercial crew program. NASA's Commercial Crew Program is currently working with Boeing and SpaceX to design, build, test, and operate safe human transportation systems to low-Earth orbit ... **Rolls-Royce pulls out of engine competition for Boeing's new airplane** — Rolls-Royce has announced its withdrawal from the competition to deliver engines to power Boeing's planned new midsize airplane (NMA). The company cited that it is unable to commit to the proposed timetable to deliver a sufficiently mature product for the aircraft as the reason for its withdrawal. Boeing plans to launch a new midsize airplane to fill a gap between the narrow and wide-body aircraft. The NMA is not expected to be operational until 2025.

The Hot Sheet is a free service for all unemployed *Contract Employment Weekly* members whereby we email your name, address, phone number, email address, resume ID number and job classification(s) to hundreds of advertising contract firm offices. The Hot Sheet is made up of two sections: Unemployed Listings and Mini-Ads, as further explained below. All Hot Sheet and Mini-Ad listings are arranged in alphabetical order by the job classification given, and can be submitted using the form below, our form online ([www.cjhunter.com](http://www.cjhunter.com)), or by calling our office at (425) 806-5200.

**Free Hot Sheet Listings** — If you are unemployed, or have been given a layoff notice, and are a current *C.E. Weekly* or *ContractJobHunter.com* member, you can submit a free listing once per calendar month. For additional listings during the same calendar month, see Mini-Ad Listings.

**Mini-Ad Listings** — To have your listing placed in the “Mini-Ad” section of the Hot Sheet, you do *not* have to be unemployed. The cost is \$5 per insertion. The format is the same: job classification, name, address, phone number, email address and resume ID number. If you are using MasterCard, Visa or Amex, or if you have funds on account with our office, you may call in your Mini-Ad listing (425/806-5200). *However, we cannot be responsible for errors in ads taken over the phone.*
