## INDUSTRY NEWS - *News of potential interest to anyone working in the contract industry*

**Aerospace giant United Technologies and Raytheon to merge in mega-deal** — Aircraft manufacturing company United Technologies (UTC) and defense contractor and industrial corporation Raytheon have agreed to combine their aerospace and defense capabilities in one of the largest corporate mergers this year. The all-stock deal merger is expected to create a new \$121 billion company that can provide advanced technologies to address rapidly growing segments within the aerospace and defense sectors. To be called Raytheon Technologies Corporation, the new company is expected to have annual revenues of \$74 billion; it will be headquartered in the greater Boston metro area. Under the terms of the deal, UTC shareholders will own 57 percent of the combined company with Raytheon shareholders owning the remaining. Raytheon shareholders will receive 2.3348 shares in the combined company for each Raytheon share held. The companies expect the merger to result in \$1 billion in cost synergies by the end of the fourth year. UTC owns the Pratt & Whitney engine maker and Collins Aerospace. It provides electronics, communications, and other equipment to commercial plane makers. UTC previously announced that it would spin-off the Otis elevator division and Carrier building systems unit to retain focus on aerospace. These two companies will not be part of the merger and will be separated from UTC later next year. Subject to customary closing conditions, including regulatory approvals and spin-off of the two units, the transaction is expected to close in the first half of 2020.

**Bombardier in talks with Mitsubishi Heavy to sell regional jet firm** — Bombardier has said it is in talks with Japanese firm Mitsubishi Heavy Industries to sell its loss-making Canadair Regional Jet (CRJ) commercial aircraft business to focus on private jets. The CRJs are regional jets with a seating capacity of 50 to 104 passengers and have a maximum range around 1,800 miles. In recent years, Bombardier has concentrated on bringing the C Series airliner, rebranded as the A220, to market. (Last year, Bombardier sold part of its passenger jet operations to Airbus.) These are 100- to 150-seat aircraft that can fly twice the distance covered by CRJs. Aviation news service, The Air Current, originally reported that Mitsubishi is in negotiations to buy the CRJ and that an announcement is expected at the start of the Paris Air Show in France on June 17. Mitsubishi Heavy confirmed that it is in talks to buy the CRJ business. The company is looking for expertise to develop and certify its regional jet program, the Mitsubishi Regional Jet (MRJ). The MRJ will be Japan's first domestically produced passenger jet, a 90-seat aircraft that is expected to compete with the CRJ and aircraft from Brazil's Embraer. The deal, if successful, is expected to boost the production capability of the Japanese company by providing Bombardier's patents, engineering team, sales and support network, and an installed base of customers, particularly in North America. For Bombardier, divesting the last remaining line of commercial aircraft would mark the end of 33 years of commercial aerospace history. Bombardier said that it would explore strategic options for the CRJ program. Recently, Bombardier had taken Mitsubishi Aircraft, a unit of Mitsubishi Heavy, to court over allegations that former Bombardier employees divulged trade secrets to help with the development and certification of the MRJ regional jet. Mitsubishi's MRJ has been delayed by several years; its first customer, ANA Holdings, was supposed to receive the Mitsubishi Regional Jet in 2013, now expects the aircraft in 2020.

# CONTRACTS AWARDED

**Scientific Applications Research Associates, Inc.**, Cypress, California, has been awarded a \$100,000,000 contract for the Golden Horde Science and Technology demonstration effort. This contract provides for support research and development of emerging munition technologies and integrated weapon demonstrations. The effort is conceptualized as a fast-paced Air Force Research Laboratory-led demonstration project executed under the auspices of the Team Eglin Weapon Consortium. Air Force Research Laboratory, Eglin Air Force Base, Florida, is the contracting activity.

**The Boeing Co.**, Seattle, Washington, is being awarded a \$326,295,367 delivery order to develop, integrate, and test Increment 3 Block capabilities into the P-8A aircraft for the Navy and the government of Australia. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

**Lockheed Martin Corp., Lockheed Martin Aeronautics Co.**, Fort Worth, Texas, is being awarded a \$264,655,025 contract modification. This modification provides for additional operation and technical services in support of the government of Korea's F-35 Lightning II program. Work will be performed in Fort Worth, Texas. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

**Goodrich Corp.**, Westford, Massachusetts, has been awarded a \$92,890,000 contract for Hyperspectral Imaging, AgilePod, Standoff High Resolution Imaging Next Era, and multi-mode lidar research and development. This contract provides for research and integration of existing electro-optical, infrared, radio frequency, multi-spectral imaging, hyperspectral imaging, and lidar sensors, and related intelligence, surveillance, and reconnaissance (ISR) technologies in order to develop the Air Force's next generation ISR sensor. Work will be performed in Westford, Massachusetts. Air Force Research Laboratory, Wright-Patterson Air Force Base, Ohio, is the contracting activity.

**The Boeing Co.**, St. Louis, Missouri, is being awarded a ceiling-priced \$4,040,458,297 modification to convert a previously awarded advanced acquisition contract to a fixed-price-incentive-firm-target multi-year contract. The target price for this multi-year contract is \$4,001,410,000. This modification provides for the full-rate production and delivery of 78 F/A-18 aircraft, specifically 61 F/A-18E and 17 F/A-18F aircraft. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

**American Systems Corp.**, Chantilly, Virginia; **Calibre Systems, Inc.**, Alexandria, Virginia; **Corps Solutions**, Stafford, Virginia; **Obsidian Solutions Group**, Fredericksburg, Virginia; **Science Applications International Corp.**, Reston, Virginia; **Solutions Through Innovative Technologies, Inc.**, Fairborn, Ohio; and **Valiant Global Defense Services, Inc.**, San Diego, California, are awarded a multiple award contract for the procurement of Marine Air-Ground Task Force (MAGTF) Training Systems Support (MTSS), with a combined maximum ceiling amount of \$245,000,000. MTSS provides pre-deployment training to the Marine Corps Operating Forces within a joint and combined environment to improve warfighting skills. Training includes realistic computer-based simulation training; command, control, computers, communications, intelligence, surveillance, and reconnaissance training; combined arms staff trainer training; MAGTF tactical warfare simulation; and deployable virtual training environment. The companies will compete for task orders under the terms and conditions of the awarded contract. The Marine Corps Systems Command, Quantico, Virginia, is the contracting activity.

**L3 Technologies Systems Co.**, Cincinnati, Ohio, has been awarded a \$131,780,189 contract for the cockpit-selectable height-of-burst sensor. This contract provides for the replacement of the current DSU-33D/B height-of-burst sensor and will address obsolescence issues, improve performance, and add functionality. Air Force Life Cycle Management Center, Hill Air Force Base, Utah, is the contracting activity.

**General Atomics Aeronautical Systems, Inc.**, Poway, Calif., has been awarded \$123,293,911 contract action for MQ-9 Block 5 procurement. This contract provides for four MQ-9 unmanned air vehicles, four mobile ground control stations, spares, and support equipment. This contract involves 100 percent foreign military sales to the Netherlands. Air Force Life Cycle Center, Wright-Patterson Air Force Base, Ohio, is the contracting activity.

**The Boeing Co.**, Huntsville, Alabama, was awarded a \$4,141,315,338 contract modification for Ground-based Midcourse Defense (GMD) Development and Sustainment Contract (DSC). The UCA extended the DSC period of performance and added the requirements to execute the GMD portion of the presidential mandated and congressionally enacted Missile Defeat and Defense Enhancements. This effort includes delivery of a new missile field with 20 silos and two additional silos in a previously constructed missile field at Fort Greely, Alaska. The MDA is deferring the production of the 20 additional ground-based interceptors (estimated not-to-exceed value of \$1,300,000,000) at this time due to the delay associated with not meeting the entrance criteria for the Redesigned Kill Vehicle (RKV) critical design review. A portion of the effort to deliver 11 boost vehicles for flight tests and spares will remain under the UCA at this time. This modification brings the total cumulative value of the contract, including options, to \$10,799,794,123. The definitized scope of work includes technical capabilities to expand and improve a state-of-the-art missile defense system to ensure defensive capabilities remain both relevant and current, to include but not limited to: boost vehicle development; providing GBI assets for labs and test events; development, integration, testing, and deployment of ground systems software builds to address emerging threats; development and fielding of upgraded launch support equipment; expanded systems testing through all ground and flight testing; cyber security support and testing; and, operations and support via performance-based logistics approach. The Missile Defense Agency, Huntsville, Alabama, is the contracting activity.

**EZJOBS** is a service that allows members to store job discipline keywords on our website. Our computer does a daily search of all newly posted jobs using your keywords. Every day, we email all new job matches to you.

*Four steps to **EZJOBS**:*

1. Go to our website (cjhunter.com) and click on "EZjobs Setup". You will be prompted for your User ID and Password.
2. Check the box to "receive email notification of new jobs."
3. If your email address is listed with us, it will appear in the second paragraph. If your email address does not appear, or has changed, click on the Email Address Change form. Add your current email address on the form and click the "Submit" button. Then click on the "EZjobs Setup" button to return to the form.
4. Enter the keywords (company and location are optional). Click on the "Search" button.

That's all there is to it. Every day a job is posted on our database, that matches your search keywords, you will be notified of that listing by email. Thus, the name **EZJOBS!**

# Hot Sheet of Available Contractors

### **Subscribers:**

When you're unemployed or if you've received your layoff notice: let the recruiters know you're available with a free Hot Sheet listing. The Hot Sheet includes your job classification, name, contact information, and resume ID. The most effective use of the Hot Sheet is to make sure you have your updated resume as your listing includes a link to your resume. The Hot Sheet consists of two sections: Unemployed Listings and Mini-Ads. You have one free listing per calendar month, if you'd like additional listings during the same calendar month, you can place a Mini-Ad. The cost is \$5 per insertion. Mini-Ads are also for those who are currently employed, but would like to have a listing on the Hot Sheet. Deadline for inclusion on Friday's Hot Sheet is Thursday, 4:00 p.m. (Pacific Coast time).

Want more info on the Hot Sheet – call or email our office, better yet – login and click on the link "Sign up for this week's Hot Sheet!" for more info.

### **Recruiters:**

Are you looking to fill an urgent requirement?? Why not try the Hot Sheet – it's a recruiting tool available to current advertisers. Recruiters can search the last 10 weeks of Hot Sheets to find contractors who are currently available. In addition to the Hot Sheet listing we provide you with a link to the subscriber's resume, along with their contact information. Login to search or view the latest Hot Sheet!!
