## INDUSTRY NEWS - *News of potential interest to anyone working in the contract industry*

**SpaceX launches Boeing-built AMOS-17 satellite** — SpaceX has launched Israeli firm Spacecom's AMOS-17 satellite from Cape Canaveral Air Force Station in Florida. Built by Boeing, the AMOS-17 digital satellite will provide significant internet access and other communications services to underserved parts of Africa, Europe, and the Middle East. The satellite will enter service in a few months after on-orbit tests and moving to its final position over Africa. AMOS-17 is built on Boeing's 702 satellite platform, and will deliver broadband services such as television, internet, and data services to a potential market consisting millions of people in its coverage regions. According to Boeing, services provided by Spacecom will expand using Boeing's 702 digital satellite platform. The fixed and steerable beams of the multi-band AMOS-17 satellite are capable of providing continued services to long-term customers. The moving bandwidth of the satellite can accommodate short-term demand for high-capacity throughput in times such as special events or natural disasters. Once operational, the satellite will be the most advanced high-throughput satellite to provide satellite communication services to Africa. The life of AMOS-17 is expected to exceed 20 years.

**LeoLabs introduces commercial satellite tracking service** — LeoLabs has launched LeoTrack, the world's first commercial satellite tracking service for smallsat and cubesat operators. The service will be available as a web-based subscription and offer satellite operators a full range of monitoring capabilities, including precision tracking and predictive radar availability. It will also offer scheduled passes and real-time orbit visualization for constellations and individual satellites. The novel satellite tracking service is built on LeoLabs' past expertise of providing satellite and space debris tracking services for constellation operators in LEO (low Earth orbit). LeoLabs already serves diversified technology leaders such as Maxar, BlackSky, Planet, and Swarm Technologies by providing supporting missions to these companies, ranging from advanced Earth observation to internet of things (IoT) connectivity. Through LeoTrack, the company intends to extend the same value proposition to the entire smallsat community.

## CE Services

**EZJOBS** is a service that allows members to store job discipline keywords on our website. Our computer does a daily search of all newly posted jobs using your keywords. Every day, we email all new job matches to you.

### Four steps to **EZJOBS**:

1. Go to our website ([cjhunter.com](http://cjhunter.com)) and click on "EZjobs Setup". You will be prompted for your User ID and Password.
2. Check the box to "receive email notification of new jobs."
3. If your email address is listed with us, it will appear in the second paragraph. If your email address does not appear, or has changed, click on the Email Address Change form. Add your current email address on the form and click the "Submit" button. Then click on the "EZjobs Setup" button to return to the form.
4. Enter the keywords (company and location are optional). Click on the "Search" button.

That's all there is to it. Every day a job is posted on our database, that matches your search keywords, you will be notified of that listing by email. Thus, the name **EZJOBS!**

Some jobs advertised in *C.E. Weekly* are for upcoming or anticipated openings, or may be filled before you respond to the advertiser. Please notify us if you find a firm advertising upcoming positions as "Immediate." **For member online access, please contact our office for a UserID and Password.**

**Contract Employment Weekly** (ISSN 1063-9268) ©Copyright 2019 C.E. Publications, Inc. Published every Wednesday. Most job openings are for short or long term contract (temporary) assignments. There should never be a fee to apply for or accept any of the jobs published in *C.E. Weekly*. Direct (captive) positions advertised must meet the following criteria: (1) be for a position with the advertiser's client (unless it is for recruiting related staff); and (2) must be identified as "direct." If you wish to apply for any position advertised, send a copy of your current resume to the advertising firm, not to C.E. Publications. *C.E. Publications* is not intended as a legal reference. Any specific problem should be referred to your attorney or accountant. All material submitted to C.E. Publications is subject to acceptance by the publisher. # Hot Sheet of Available Contractors

### **Subscribers:**

When you're unemployed or if you've received your layoff notice: let the recruiters know you're available with a free Hot Sheet listing. The Hot Sheet includes your job classification, name, contact information, and resume ID. The most effective use of the Hot Sheet is to make sure you have your updated resume as your listing includes a link to your resume. The Hot Sheet consists of two sections: Unemployed Listings and Mini-Ads. You have one free listing per calendar month, if you'd like additional listings during the same calendar month, you can place a Mini-Ad. The cost is \$5 per insertion. Mini-Ads are also for those who are currently employed, but would like to have a listing on the Hot Sheet. Deadline for inclusion on Friday's Hot Sheet is Thursday, 4:00 p.m. (Pacific Coast time).

Want more info on the Hot Sheet – call or email our office, better yet – login and click on the link "Sign up for this week's Hot Sheet!" for more info.

### **Recruiters:**

Are you looking to fill an urgent requirement?? Why not try the Hot Sheet – it's a recruiting tool available to current advertisers. Recruiters can search the last 10 weeks of Hot Sheets to find contractors who are currently available. In addition to the Hot Sheet listing we provide you with a link to the subscriber's resume, along with their contact information. Login to search or view the latest Hot Sheet!!
