CE Services

EZJOBS is a service that allows members to store job discipline keywords on our website. Our computer does a daily search of all newly posted jobs using your keywords. Every day, we email all new job matches to you.

Four steps to **EZJOBS**:

1. Go to our website (cjhunter.com) and click on "EZjobs Setup". You will be prompted for your User ID and Password.
2. Check the box to "receive email notification of new jobs."
3. If your email address is listed with us, it will appear in the second paragraph. If your email address does not appear, or has changed, click on the Email Address Change form. Add your current email address on the form and click the "Submit" button. Then click on the "EZjobs Setup" button to return to the form.
4. Enter the keywords (company and location are optional). Click on the "Search" button.

That's all there is to it. Every day a job is posted on our database, that matches your search keywords, you will be notified of that listing by email. Thus, the name **EZJOBS!**

INDUSTRY NEWS - *News of potential interest to anyone working in the contract industry*

SEAKR selected to build space signal processor for GEOStar satellites — Northrop Grumman has selected space applications advanced electronics provider SEAKR Engineering to build an advanced space signal processor. The Wolverine processor will be used on two new GEOStar satellites to be launched in 2022. GEOStar satellites are designed and developed to be able to provide communications services such as direct-to-home TV broadcasting, broadband connectivity, cable program distribution, and business data network capacity. Northrop Grumman is SEAKR's second customer to use the Wolverine processor, a new radio frequency (RF) reconfigurable processor. The device is capable of processing 10GHz of bandwidth for several applications. It also has a high level of on-orbit reconfigurable processing capability. The RF processor has been designed making use of four generations of architectural capability to support all the needs of payload processing performance. The technologies from SEAKR that are being implemented or used include analog-to-digital converter (ADC) and digital-to-analog converter (DAC) technologies, and FPGA-based and application-specific integrated circuit (ASIC) based processing technologies.

Northrop completes assembly of NASA's James Webb Space telescope — The milestone was achieved after the two halves, namely James Webb Space Telescope Spacecraft Element (SCE) and Optical Telescope Element/Integrated Science Instrument Module (OTIS), were joined together. Northrop Grumman carried out the work at its facility in Redondo Beach, California. The preparations to connect the two halves began seven years ago when work started on the design and build of the flight hardware and tools required for the task. Engineers had to align the 8,000-pound, 131-inch OTIS with six launch load interfaces in a two-phase operation. The two sections have undergone environmental testing separately. In the next few months, the James Webb Space Telescope will be prepared for acoustic and vibration environmental testing in 2020. The telescope will be launched in 2021, and is expected to assist in providing more insight into and beyond the mysteries in the solar system.

* See page column refers to the page number of a display ad with possible further information regarding the job openings and/or related requirements. Where *Index* is used, there is no display ad for that listing. The address and phone number of the firm with that job can, therefore, be found in the *Index of Contract Firms* in the back of each *C.E. Weekly*. The following feature of *C.E. Weekly* categorizes job openings by discipline. Please keep in mind that *JobLines* represent just a portion of the total number of openings published in this issue. There are many jobs appearing in display ads, which do not appear in *JobLines*.

Hot Sheet of Available Contractors

Subscribers:

When you're unemployed or if you've received your layoff notice: let the recruiters know you're available with a free Hot Sheet listing. The Hot Sheet includes your job classification, name, contact information, and resume ID. The most effective use of the Hot Sheet is to make sure you have your updated resume as your listing includes a link to your resume. The Hot Sheet consists of two sections: Unemployed Listings and Mini-Ads. You have one free listing per calendar month, if you'd like additional listings during the same calendar month, you can place a Mini-Ad. The cost is \$5 per insertion. Mini-Ads are also for those who are currently employed, but would like to have a listing on the Hot Sheet. Deadline for inclusion on Friday's Hot Sheet is Thursday, 4:00 p.m. (Pacific Coast time).

Want more info on the Hot Sheet – call or email our office, better yet – login and click on the link "Sign up for this week's Hot Sheet!" for more info.

Recruiters:

Are you looking to fill an urgent requirement?? Why not try the Hot Sheet – it's a recruiting tool available to current advertisers. Recruiters can search the last 10 weeks of Hot Sheets to find contractors who are currently available. In addition to the Hot Sheet listing we provide you with a link to the subscriber's resume, along with their contact information. Login to search or view the latest Hot Sheet!!
