**INDUSTRY NEWS** - News of potential interest to anyone working in the contract industry

**U.S. Department of Labor Announces Final Rule to Clarify Independent Contractor Status Under the Fair Labor Standards Act** — On January 6, the U.S. Department of Labor announced a final rule clarifying the standard for employee versus independent contractor status under the Fair Labor Standards Act (FLSA). “This rule brings long-needed clarity for American workers and employers,” said U.S. Secretary of Labor Eugene Scalia. “Sharpening the test to determine who is an independent contractor under the Fair Labor Standards Act makes it easier to identify employees covered by the Act, while recognizing and respecting the entrepreneurial spirit of workers who choose to pursue the freedom associated with being an independent contractor.” Streamlining and clarifying the test to identify independent contractors will reduce worker misclassification, reduce litigation, increase efficiency, and increase job satisfaction and flexibility. The real-life examples included in the rule provide even greater clarity for the workforce. The final rule includes the following clarifications: reaffirms an economic reality test to determine whether an individual is in business for him or herself (independent contractor) or is economically dependent on a potential employer for work (FLSA employee). Identifies and explains two core factors that are most probative to the question of whether a worker is economically dependent on someone else’s business or is in business for him or herself: the nature and degree of control over the work; the worker’s opportunity for profit or loss based on initiative or investment. Identifies three other factors that may serve as additional guideposts in the analysis, particularly when the two core factors do not point to the same classification. The factors are: the amount of skill required for the work; the degree of permanence of the working relationship between the worker and the potential employer. Whether the work is part of an integrated unit of production. The actual practice of the worker and the potential employer is more relevant than what may be contractually or theoretically possible. Provides six fact-specific examples applying the factors. The rule will take effect 60 days after publication on the Federal Register, on March 8, 2021.

## Hot Sheet of Available Contractors

### **Subscribers:**

When you're unemployed or if you've received your layoff notice: let the recruiters know you're available with a free Hot Sheet listing. The Hot Sheet includes your job classification, name, contact information, and resume ID. The most effective use of the Hot Sheet is to make sure you have your updated resume as your listing includes a link to your resume. The Hot Sheet consists of two sections: Unemployed Listings and Mini-Ads. You have one free listing per calendar month, if you'd like additional listings during the same calendar month, you can place a Mini-Ad. The cost is \$5 per insertion. Mini-Ads are also for those who are currently employed, but would like to have a listing on the Hot Sheet. Deadline for inclusion on Friday's Hot Sheet is Thursday, 4:00 p.m. (Pacific Coast time).

Want more info on the Hot Sheet – call or email our office, better yet – login and click on the link "Sign up for this week's Hot Sheet!" for more info.

### **Recruiters:**

Are you looking to fill an urgent requirement?? Why not try the Hot Sheet – it's a recruiting tool available to current advertisers. Recruiters can search the last 10 weeks of Hot Sheets to find contractors who are currently available. In addition to the Hot Sheet listing we provide you with a link to the subscriber's resume, along with their contact information. Login to search or view the latest Hot Sheet!!
