* See page column refers to the page number of a display ad with possible further information regarding the job openings and/or related requirements. Where Index is used, there is no display ad for that listing. The address and phone number of the firm with that job can, therefore, be found in the *Index of Contract Firms* in the back of each *C.E. Weekly*. The following feature of *C.E. Weekly* categorizes job openings by discipline. Please keep in mind that *JobLines* represent just a portion of the total number of openings published in this issue. There are many jobs appearing in display ads, which do not appear in *JobLines*.

MANUFACTURING * POWER *** OIL & GAS**

FIELD AND OFFICE LOCATIONS: MA / CA / CO / AZ / WI / KS / NC / VA / PA / FL / NH / IL

CIVIL ENGINEER-Develop a plan to mitigate the long term effects of groundwater degradation on underground structures and equipment to sustain long term plant operations

COMMISSIONING ENGINEER-All aspects of the startup and operation of the assigned systems on GA, coal and CoGen power plants

ELECTRICAL DESR-Must have exp in power plants and oil/gas facilities, and locating eqpt in a 3D envr as well as design using Microstation and PDS

ELECTRICAL ENGINEER-Substation engineering including detail physical design for high voltage substation projects through 345kv. Depending upon complexity of the project, candidate may prepare, provide guidance or assist in preparing and developing the engineering deliverables such as transformers, distribution systems, doing the associated load calcs, and working with SKM: ETAP, ArcFlash and relay protection

FACILITY DESIGNER-Heavy industrial bldgs, plant layout, power generating plant, using Microstn, PDS, 2D and 3D working with raceways and cable tray

HEALTH & SAFETY SPECIALIST-Implement and/or administer safety, health, environmental protection and substance abuse prevention programs affecting employee and public safety, occupational health, fire protection and prevention, and equipment and property protection. DOE/NRC regulations

HVAC ENGINEER & DESIGNER-Piping, layout, design, mechanical duct work, design and installation, plumbing and fire protection with various CAD systems. Support calculations, analysis, studies, equipment specs/data sheets

INSTRN & CONTROL ENGINEER-Review and prepare I&C engrg and design calcs and provide design recommendations. These recommendations must adhere to applicable codes, standards and procedures. Work with MCC, LabView and PCB layout for programmable control circuits and drives

MECHANICAL ENGINEER-Components for vessels, tanks and pumps

PRODUCT & MACHINE DESR-Tooling design, injection molding eqpt, GD&T, detail drawings in 2D and 3D using AutoCAD, Pro/E, Unigraphics (NX)

PIPING DESIGNERS-Review and update P&IDs, design equipment layouts on industrial, chemicals, refinery and specialty chemicals (cryogenics), including utility piping using Microstation/PDS

PLANNERS/SCHEDULER-Primavera products (3, P4 and P6) being the primary tool used. Command and control of schedule development, maintenance, structure and process

PROCEDURE WRITERS-Systems and procedure knowledge who can read modifications, complete tech review, assess impact and necessity for procedural changes or updates

PIPE SUPPORT ENGR & DESR-Pipe support modeling using PDS support modeler, Pelican Forge, Microsoft Word, 3D CAD skills, Intergraph PDS 3D, Microsoft Excel, Access, Pelican Forge Support Modeler and Microstation

PIPE STRESS ENGINEER-Strengths of materials, specialty support design, fluid dynamics, corrosion principals, piping vibration and competency with Caesar II stress analysis software

QUALITY ASSURANCE ENGINEER-QA/QC procurement activities during the execution of a major international nuclear power plant project. Implement programs to oversee and monitor progress and success during the execution of the project

SECURITY SYSTEM-Design, develop and coordinate implementation of both LT and ST including supporting technology and monitor these policies, procedures and technologies, once implemented, to ensure compliance

STRUCTURAL ENGINEER-Preparation of structural engrg calcs for steel structures and/or foundations. This includes basic analysis, design calcs, equipment research, sketches, etc. required to prepare documents, specifications, drawings or to meet other project requirements

VESSEL ENGINEER-Develop equipment designs using validated and verified special application software (Compress or equivalent) and can perform dynamic equipment analyses and consider the effects of tank sloshing. Familiar with ASME boiler and pressure vessel code

SUBSCRIBER SERVICES

Hot Sheet of Available Contractors:

For unemployed subscribers (or those with layoff notices). We email your name, address, phone, email address, a link to your online resume, and job classification(s) to our advertising contract staffing firms.

Online Profile:

Every day, recruiters perform hundreds of searches of our resume database, usually locating multiple resumes that match their keyword search. Often subscribers have certain requirements that do not generally appear on their resumes. For example: Are you currently available, or are you working now and won't be available for a couple of months? ... What is the minimum rate you will accept? ... etc. Your personal profile allows you to make that information available to recruiters. It is critical that you keep your profile very current ... especially the status of your availability. This service is only as effective for you as the effort you devote to it.

My JobTracker:

Track your saved jobs and any follow-ups you've made to recruiters. All records in one place for your job searches, responses, and notes about the assignment. Our latest subscriber service ... and one of the most valuable!

EZjobs:

Subscribers can receive each day's new job postings for openings that match their pre-set keywords. Those listings will be emailed to you stating the name of the recruiting firm, contact information, and all the data we have about each job.

Resume Email Forwarding History:

Subscribers can track their resume forwarding history to see when and to whom their resume has been emailed from our website. This service tracks resumes sent by: job searches using E-Resume, individual resumes sent to any of our advertisers, and updated resume distribution.

Resume View Notification:

Every time your resume is viewed, downloaded or printed by a contract staffing firm ... we immediately email you a notification. Included in the email is the name of the firm, the recruiter's name (if known), keywords that the recruiter used to find your resume, and contact information. Keep in mind that we must have your current email address on file in order for you to participate in this service. Here, too, you may opt out this service if you choose.

Mail Forwarding Service:

You can have a permanent (or forwarding) address to guarantee yourself of constantly receiving your mail. If you are interested in using this service, contact our office for details. Email staff@cjhunter.com or call (425) 806-5200. Please Note: you must be a user of our Mail Forwarding Service if you put our address on your resume for contact information. Cost: \$10/month, charged to your account at the beginning of the month. If no mail is forwarded, this charge is refunded to your account at the end of the month. As long as you have a mail forwarding account active, you will be charged for the service only if we actually forward your mail at least once during a calendar month.

Free Email Account:

If you are a *ContractJobHunter* or *Contract Employment Weekly* subscriber who uses email a lot ... this subscriber service will probably be of interest to you. This service is free, as long as you keep your subscription current. Restrictions: Any single document (either sent or received) cannot exceed 500K in size; the total amount of space allotted to any subscriber is 5 megabytes; you may select your own personal email address. We suggest using your name (Example: john.doe@members.cjhunter.com).

Discussion Forums:

Subscribers can leave messages and questions for other subscribers on this board. Discussed subjects have included: Insurance for contractors ... overtime on full rate ... job locations ... pre-employment drug testing ... and lots of contractors looking for old friends.

Aerospace News – Combat rescue helicopter award coming by June-Although it will have to shift money around to do so, the Air Force says it will issue a contract for the new combat rescue helicopter by the end of June, good news for Sikorsky and Lockheed Martin, the team whose design the Air Force picked. The helicopter didn't get 2015 funding, but the Air Force will gather \$430 million over the next five years from other programs to fund the helicopter ... **Budget could nix Super Hornet fighter jet, 900 Northrop Grumman jobs**- The F/A-18 Super Hornet fighter jet was excluded from President Barack Obama's budget request, which could spell the end of the program and cost Northrop Grumman Corp. 900 jobs at its

El Segundo plant. The \$3.9 trillion fiscal year 2015 budget request to Congress includes no new orders for the aircraft carrier-based Super Hornet and its electronic warfare version known as the EA-18G Growler ... **Preparation for Mars: NASA boosts asteroid mission**-NASA's latest budget would funnel \$133 million to a plan to push an asteroid close enough so that astronauts could land on it -- serving as practice for a later manned mission to Mars. The space agency's fiscal 2015 budget request totals \$17.46 billion and preserves funding to key projects such as Space Launch System rocket and the Orion spacecraft ... **Bomber will exceed \$550M, Air Force acquisition chief says**-The Air Force will have to spend more than the planned \$550 million-per-unit price in order to get the kind of long-range strike bomber it needs, said Lt. Gen. Charles Davis, the Air Force's deputy for acquisition. "No, of course it's not going to be \$550 million a copy once you add in everything," said Davis. "What it will be is \$550 million in design constraints." He added the design "limits the technology you bring in, it limits certain parameters and certain capabilities" ... **USAF to fund development of long-range bomber program**-Under a five-year plan for the U.S. Air Force, the development of a long-range bomber would receive \$11.8 billion in funding. The new bomber would replace the aging fleet of B-2 stealth bombers, built by Northrop Grumman Corp. A request for proposals for the program will likely go out later this year, according to Air Force Secretary Debra James ... **Kennedy Space Center drone demonstration takes off**-Demonstrations of drone flight near the Kennedy Space Center by three companies recently show Space Florida that the state could be home to a growing drone industry even though it wasn't selected as one of the Federal Aviation Administration's test sites. "It was an extremely successful event," said Jim Kuzma, Space Florida's chief operating officer, said of the test flights. "If these companies can test here, they can grow here."
