Online Profile:

Every day, recruiters perform hundreds of searches of our resume database, usually locating multiple resumes that match their keyword search. Often subscribers have certain requirements that do not generally appear on their resumes. For example: Are you currently available, or are you working now and won't be available for a couple of months? ... What is the minimum rate you will accept? ... etc. Your personal profile allows you to make that information available to recruiters. It is critical that you keep your profile very current ... especially the status of your availability. This service is only as effective for you as the effort you devote to it.

Every time your resume is viewed, downloaded or printed by a contract staffing firm ... we immediately email you a notification. Included in the email is the name of the firm, the recruiter's name (if known), keywords that the recruiter used to find your resume, and contact information. Keep in mind that we must have your current email address on file in order for you to participate in this service. Here, too, you may opt out this service if you choose.
