**Aerospace News – US aerospace industrial base is running out of time** - With the news that a \$1.1 billion order for Boeing jetliners by a South African airline is at risk of cancellation, and the announcements of three lost US commercial satellite sales, it is clear that the failure of Congress to reauthorize the US Export-Import Bank is causing the American aerospace industry to lose ground against its foreign competitors, and potentially thousands of workers to lose their jobs. The price for delay of the vote to reauthorize the Ex-Im Bank is going up every second, and our nation will ultimately bear the cost. Hold the vote and reauthorize the Export-Import Bank ...

**Lockheed pursues talks to merge IT, services units with another government contractor** - Lockheed Martin is considering merging parts of its IT and services businesses with another government contractor, a move that could generate \$2 billion for the company, sources say. CACI International and Science Applications International are reportedly in talks with Lockheed regarding a potential deal ...

**Sikorsky buy complements Lockheed's capabilities** - The acquisition of Sikorsky provides Lockheed Martin with helicopter production, allowing orders for a type of aircraft the defense contractor currently doesn't produce. "I look forward to seeing Lockheed's \$9 billion purchase of Sikorsky go through and the world's best helicopters continue to be built in Stratford," said Rep. Rosa DeLauro, D-Connecticut ...

**Boeing, BAE will develop EW suite for F-15** - The US Air Force selected Boeing as the prime contractor on a new, all-digital electronic warfare suite for its fleet of F-15 fighters. BAE Systems will develop the new system. The Air Force's Eagle Passive Active Warning Survivability System (EPAWSS) will counter threats and better protect F-15 air crews, according to an October 1 Boeing statement. The system will be installed on more than 400 F-15Es and F-15Cs, replacing the legacy Tactical Electronic Warfare System, which has been in use since the 1980s. The EPAWSS program is valued at \$4 billion, according to the statement ...

**Lockheed receives approval to begin building Space Fence** - The Air Force has approved Lockheed Martin's Space Fence design following a three-day review. "Once complete, Space Fence will deliver revolutionary capability to the US Air Force with a flexible system capable of adapting to future missions requiring new tracking and coverage approaches," said Lockheed Martin's Steve Bruce ...

**Defense authorization includes Ohio Replacement program, trimming civilian workforce** - Support for the Ohio Replacement program, defense acquisition reform, additional retirement benefits for the military and downsizing of the civilian workforce are all part of the 2016 National Defense Authorization Act ...

**Lockheed says further consolidation among primes won't harm competition, innovation** - Lockheed Martin disputes the assertion that further consolidation among prime contractors could harm competition or dampen innovation. "We believe that defense contractors should continue to be assessed based on the performance and effectiveness of the products and solutions offered, not on the size of their company," said spokesman Dan Nelson ...

**Boeing to start delivering military helicopters to India in 2018** - Boeing Co. plans to start delivering military helicopters to India in 2018, two people familiar with the deal said. After years of delay, India's cabinet last week gave its final approval to buy 37 helicopters from the Chicago-based defense and aeronautics company. The \$3 billion deal will be completed by the middle of 2020, one of the people, who didn't wish to be named, said Tuesday ...

**ULA secures \$882 million launch, support contract from Air Force** - United Launch Alliance will continue launching satellites for the Air Force under an \$882 million contract, according to the Defense Department. The contract for services from the Boeing-Lockheed Martin joint venture will begin in October.

#### MANUFACTURING \*\*\* POWER \*\*\* OIL & GAS

**FIELD & OFFICE LOCATIONS: MA / CA / CO / AZ / WI / KS / NC / VA / PA / FL / NH / IL**

**CIVIL ENGINEER**-Develop a plan to mitigate the long term effects of groundwater degradation on underground structures and eqpt to sustain long term plant operations

**COMMISSIONING ENGINEER**-Responsible for all aspects of the startup and operation of the assigned systems on GA, coal and CoGen power plants

**ELECTRICAL ENGINEER**-Substation engineering including detailed physical design for high voltage substation projects through 345kv. Depending upon complexity of the project, candidate may prepare, provide guidance or assist in preparing and developing the engineering deliverables such as transformers, distribution systems, doing the associated load calcs, and working with SKM: ETAP, ArcFlash and relay protection

**ELECTRICAL DESIGNER**-Must have exp in power plants and oil/gas facilities. Must be capable of locating equipment in a 3D environment as well as design using Microstation and PDS

**FACILITY DESIGNER**-Heavy industrial buildings, plant layout, power generating plant, using Microstation, PDS, 2D & 3D working with raceways and cable tray

**HEALTH & SAFETY SPECIALIST**-Implement and/or administer safety, health, environmental protection, and substance abuse prevention programs affecting employee and public safety, occupational health, fire protection and prevention, and equipment and property protection. DOE/NRC regulations

**HVAC ENGINEER & DESIGNER**-Piping, layout, design, mechanical duct work, design and installation, plumbing and fire protection with various CAD systems. Support calculations, analysis, studies, equipment specifications/data sheets

**INSTRUMENTATION & CONTROL ENGINEER**-Review and prepare I&C engineering and design calculations and provide design recommendations which must adhere to applicable codes, standards and procedures. Working with MCC, LabView and PCB layout for programmable control circuits and drives

**INSTRUCTORS/TRAINERS**-Develop lesson, Power Point slides and teach training classes for the operations. Must have had SRO certification on either BWR/PWR plants

**MECHANICAL ENGINEER**-Component for vessels, tanks and pumps

**PRODUCT & MACHINE DESIGNER**-Tooling design, injection molding equipment, GD&T, detail drawings in 2D & 3D using AutoCAD, Pro/E, Unigraphics (NX)

**MECHANICAL ENGINEER**-Nuclear licensing background for all plant systems

**PIPING DESIGNERS**-Review and update P&IDs, design equipment layouts on industrial, chemicals, refinery and specialty chemicals (cryogenics) including utility piping using Microstation/PDS

**PROJECT MANAGERS**-PMP cert and PMI trained (nationwide)

**PLANNERS/SCHEDULER**-Primavera products (P3, P4 & P6) being the primary tool used. Command and control of schedule level, maintenance, structure and process

**PROCEDURE WRITERS**-Systems and procedure knowledge who can read mods, complete tech review, assess impact and necessity for procedural changes or updates

**PIPE SUPPORT ENGINEER & DESIGNER**-Pipe support modeling using PDS Support Modeler, Pelican Forge, Microsoft Word, 3D CAD skills, Intergraph PDS 3D, Microsoft Excel, Access, Pelican Forge Support Modeler and Microstation

**PIPE STRESS ENGINEER**-Strengths of materials, specialty support design, fluid dynamics, corrosion principles, piping vibration and competency with Caesar II stress analysis software

**QUALITY ASSURANCE ENGINEER**-QA/QC procurement activities during the execution of a major international nuclear power plant project. Implements programs to oversee and monitor progress and success during the execution of the project

**SECURITY SYSTEM**-Design, develop and coordinate implementation of both long term and short term including supporting technology, and monitor these policies, procedures and technologies, once implemented, to ensure compliance

**STARTUP ENGINEER**-Facilitate the process review of test data

**STRUCTURAL ENGINEER**-Preparation of structural engineering calculations for steel structures and/or foundations. This includes basic analysis, design calcs, equipment research, sketches, etc. required to prepare documents, specifications, drawings or to meet other project requirements

**VESSEL ENGINEER**-Develop equipment designs using validated and verified special application software (Compress or equivalent) and can perform dynamic equipment analyses and consider the effects of tank sloshing. Familiar with ASME boiler and pressure vessel code

## SUBSCRIBER SERVICES

### Hot Sheet of Available Contractors:

For unemployed subscribers (or those with layoff notices). We email your name, address, phone, email address, a link to your online resume, and job classification(s) to our advertising contract staffing firms.

### Online Profile:

Every day, recruiters perform hundreds of searches of our resume database, usually locating multiple resumes that match their keyword search. Often subscribers have certain requirements that do not generally appear on their resumes. For example: Are you currently available, or are you working now and won't be available for a couple of months? ... What is the minimum rate you will accept? ... etc. Your personal profile allows you to make that information available to recruiters. It is critical that you keep your profile very current ... especially the status of your availability. This service is only as effective for you as the effort you devote to it.

### My JobTracker:

Track your saved jobs and any follow-ups you've made to recruiters. All records in one place for your job searches, responses, and notes about the assignment. Our latest subscriber service ... and one of the most valuable!

### EZjobs:

Subscribers can receive each day's new job postings for openings that match their pre-set keywords. Those listings will be emailed to you stating the name of the recruiting firm, contact information, and all the data we have about each job.

### Resume Email Forwarding History:

Subscribers can track their resume forwarding history to see when and to whom their resume has been emailed from our website. This service tracks resumes sent by: job searches using E-Resume, individual resumes sent to any of our advertisers, and updated resume distribution.

### Resume View Notification:

Every time your resume is viewed, downloaded or printed by a contract staffing firm ... we immediately email you a notification. Included in the email is the name of the firm, the recruiter's name (if known), keywords that the recruiter used to find your resume, and contact information. Keep in mind that we must have your current email address on file in order for you to participate in this service. Here, too, you may opt out this service if you choose.

### Mail Forwarding Service:

You can have a permanent (or forwarding) address to guarantee yourself of constantly receiving your mail. If you are interested in using this service, contact our office for details. Email [staff@cjhunter.com](mailto:staff@cjhunter.com) or call (425) 806-5200. Please Note: you must be a user of our Mail Forwarding Service if you put our address on your resume for contact information. Cost: \$10/month, charged to your account at the beginning of the month. If no mail is forwarded, this charge is refunded to your account at the end of the month. As long as you have a mail forwarding account active, you will be charged for the service only if we actually forward your mail at least once during a calendar month.

### Free Email Account:

If you are a *ContractJobHunter* or *Contract Employment Weekly* subscriber who uses email a lot ... this subscriber service will probably be of interest to you. This service is free, as long as you keep your subscription current. Restrictions: Any single document (either sent or received) cannot exceed 500K in size; the total amount of space allotted to any subscriber is 5 megabytes; you may select your own personal email address. We suggest using your name (Example: [john.doe@members.cjhunter.com](mailto:john.doe@members.cjhunter.com)).

### Discussion Forums:

Subscribers can leave messages and questions for other subscribers on this board. Discussed subjects have included: Insurance for contractors ... overtime on full rate ... job locations ... pre-employment drug testing ... and lots of contractors looking for old friends.
