FIELD & OFFICE LOCATIONS: MA / CA / CO / AZ / WI / KS / NC / VA / PA / FL / NH / IL

CIVIL ENGINEER-Develop a plan to mitigate the long term effects of groundwater degradation on underground structures and eqpt to sustain long term plant operations

COMMISSIONING ENGINEER-Responsible for all aspects of the startup and operation of the assigned systems on GA, coal and CoGen power plants

ELECTRICAL ENGINEER-Substation engineering including detailed physical design for high voltage substation projects through 345kv. Depending upon complexity of the project, candidate may prepare, provide guidance or assist in preparing and developing the engineering deliverables such as transformers, distribution systems, doing the associated load calcs, and working with SKM: ETAP, ArcFlash and relay protection

ELECTRICAL DESIGNER-Must have exp in power plants and oil/gas facilities. Must be capable of locating equipment in a 3D environment as well as design using Microstation and PDS

FACILITY DESIGNER-Heavy industrial buildings, plant layout, power generating plant, using Microstation, PDS, 2D & 3D working with raceways and cable tray

HEALTH & SAFETY SPECIALIST-Implement and/or administer safety, health, environmental protection, and substance abuse prevention programs affecting employee and public safety, occupational health, fire protection and prevention, and equipment and property protection. DOE/NRC regulations

HVAC ENGINEER & DESIGNER-Piping, layout, design, mechanical duct work, design and installation, plumbing and fire protection with various CAD systems. Support calculations, analysis, studies, equipment specifications/data sheets

INSTRUMENTATION & CONTROL ENGINEER-Review and prepare I&C engineering and design calculations and provide design recommendations which must adhere to applicable codes, standards and procedures. Working with MCC, LabView and PCB layout for programmable control circuits and drives

INSTRUCTORS/TRAINERS-Develop lesson, Power Point slides and teach training classes for the operations. Must have had SRO certification on either BWR/PWR plants

MECHANICAL ENGINEER-Component for vessels, tanks and pumps

PRODUCT & MACHINE DESIGNER-Tooling design, injection molding equipment, GD&T, detail drawings in 2D & 3D using AutoCAD, Pro/E, Unigraphics (NX)

MECHANICAL ENGINEER-Nuclear licensing background for all plant systems

PIPING DESIGNERS-Review and update P&IDs, design equipment layouts on industrial, chemicals, refinery and specialty chemicals (cryogenics) including utility piping using Microstation/PDS

PROJECT MANAGERS-PMP cert and PMI trained (nationwide)

PLANNERS/SCHEDULER-Primavera products (P3, P4 & P6) being the primary tool used. Command and control of schedule level, maintenance, structure and process

PROCEDURE WRITERS-Systems and procedure knowledge who can read mods, complete tech review, assess impact and necessity for procedural changes or updates

PIPE SUPPORT ENGINEER & DESIGNER-Pipe support modeling using PDS Support Modeler, Pelican Forge, Microsoft Word, 3D CAD skills, Intergraph PDS 3D, Microsoft Excel, Access, Pelican Forge Support Modeler and Microstation

PIPE STRESS ENGINEER-Strengths of materials, specialty support design, fluid dynamics, corrosion principles, piping vibration and competency with Caesar II stress analysis software

QUALITY ASSURANCE ENGINEER-QA/QC procurement activities during the execution of a major international nuclear power plant project. Implements programs to oversee and monitor progress and success during the execution of the project

SECURITY SYSTEM-Design, develop and coordinate implementation of both long term and short term including supporting technology, and monitor these policies, procedures and technologies, once implemented, to ensure compliance

STARTUP ENGINEER-Facilitate the process review of test data

STRUCTURAL ENGINEER-Preparation of structural engineering calculations for steel structures and/or foundations. This includes basic analysis, design calcs, equipment research, sketches, etc. required to prepare documents, specifications, drawings or to meet other project requirements

VESSEL ENGINEER-Develop equipment designs using validated and verified special application software (Compress or equivalent) and can perform dynamic equipment analyses and consider the effects of tank sloshing. Familiar with ASME boiler and pressure vessel code

Aerospace News – As methods evolve, defense industry sees rise in demand for simulation, training - Simulation and training is proving a growth business for the defense sector. "We're evolving from a world where the focal point was Afghanistan, Iraq, al-Qaida," said Bill Toti, president of Cubic Global Defense. "We almost long for the days when al-Qaida was our adversary. ISIS is a more brutal, more troubling, more pervasive enemy and that's causing an evolution in the methods by which we battle" ... **Cessna, Learjet to get \$50M in bonds for improvements, equipment** - The Wichita City Council

in Kansas has approved \$50 million worth of industrial revenue bonds for Cessna Aircraft and Bombardier Learjet to help fund facility improvements and equipment. Cessna is adding tooling and increasing its Wichita facilities, while Learjet is adding aircraft positioning and tracking equipment ... **If you think it, can you fly it?**

- A neural-sensing headset that picks up on faint signals from a trained pilot's brain may be the future of flight control. Honeywell has developed the technology, inspired by the potential speed and efficiency of human-machine interaction via direct brain sensing ... **Virgin Galactic to launch rockets from Boeing 747** - Virgin Galactic plans to launch small rockets into orbit from a Boeing 747-400 dubbed Cosmic Girl. The commercial space company purchased the jetliner from Virgin Atlantic airline. "Air launch enables us to provide rapid, responsive service to our satellite customers on a schedule set by their business and operational needs, rather than the constraints of national launch ranges," said Virgin Galactic CEO George Whitesides ... **NASA's Chemical Laptop could help rovers find signs of life on Mars** - A new NASA tool called the Chemical Laptop may be transported with future rovers on planetary exploration missions to perform tests to detect life. The mobile lab is designed to find amino acids and fatty acids and then test them to determine whether those molecules signal life ... **Kendall: Despite value, DOD can't "fence" F-35 from 2017 cuts** - Budget cuts coming in 2017 could impact the F-35 program, according to Frank Kendall, undersecretary of defense for acquisition, technology and logistics. "It is our most cutting-edge capability. Dollar for dollar it probably gives us more combat capability than any other investment that we're making, but we've got a lot of other things that we've got to do as well," he said. "So ... I can't say that it's entirely fenced" ... **Study: US needs 200 new bombers** - The Air Force has confirmed it plans to buy 100 Long-Range Strike Bombers, though experts say many more are needed. "Limiting production of the new bomber [LRSB] to 100 airframes would severely decrease the options available to national decision-makers during times of crisis or periods of instability," says a study by the Mitchell Institute for Aerospace Studies. "A modernized bomber force of 200 aircraft will sustain America's asymmetric advantage in long-range precision strike for decades to come" ... **Experts predict more defense industry consolidation** - Defense companies will face an active merger-and-acquisition environment in the near term, industry analysts say. "This is the early stage of defense M&A activity," said Tess Oxenstierna, managing director of Headwaters MB. "What's happened in the last 12 to 18 months is an uptick. There's \$2 trillion of cash sloshing around in the aerospace/defense market" ... **DOD announces \$940M in contracts to Sikorsky** - The Defense Department has announced \$940 million in contract awards to Sikorsky Aircraft. The work includes an \$833 million general sustainment contract from the Army.

Daily Resume Distribution

When members first enter a new resume into our online database, you can choose to have us email it to all current advertisers. Recruiters select to receive all new resumes, submit keywords to receive only selected resumes, or receive no resumes at all. Each time you update your resume, you can once again choose to have us email your resume. *The default is set to not distribute the resume; only members who check the box for distribution will have their resume emailed.*

FIRST-CLASS MAIL

SUBSCRIBER SERVICES

Hot Sheet of Available Contractors:

For unemployed subscribers (or those with layoff notices). We email your name, address, phone, email address, a link to your online resume, and job classification(s) to our advertising contract staffing firms.

Online Profile:

Every day, recruiters perform hundreds of searches of our resume database, usually locating multiple resumes that match their keyword search. Often subscribers have certain requirements that do not generally appear on their resumes. For example: Are you currently available, or are you working now and won't be available for a couple of months? ... What is the minimum rate you will accept? ... etc. Your personal profile allows you to make that information available to recruiters. It is critical that you keep your profile very current ... especially the status of your availability. This service is only as effective for you as the effort you devote to it.

My JobTracker:

Track your saved jobs and any follow-ups you've made to recruiters. All records in one place for your job searches, responses, and notes about the assignment. Our latest subscriber service ... and one of the most valuable!

EZjobs:

Subscribers can receive each day's new job postings for openings that match their pre-set keywords. Those listings will be emailed to you stating the name of the recruiting firm, contact information, and all the data we have about each job.

Resume Email Forwarding History:

Subscribers can track their resume forwarding history to see when and to whom their resume has been emailed from our website. This service tracks resumes sent by: job searches using E-Resume, individual resumes sent to any of our advertisers, and updated resume distribution.

Resume View Notification:

Every time your resume is viewed, downloaded or printed by a contract staffing firm ... we immediately email you a notification. Included in the email is the name of the firm, the recruiter's name (if known), keywords that the recruiter used to find your resume, and contact information. Keep in mind that we must have your current email address on file in order for you to participate in this service. Here, too, you may opt out this service if you choose.

Mail Forwarding Service:

You can have a permanent (or forwarding) address to guarantee yourself of constantly receiving your mail. If you are interested in using this service, contact our office for details. Email staff@cjhunter.com or call (425) 806-5200. Please Note: you must be a user of our Mail Forwarding Service if you put our address on your resume for contact information. Cost: \$10/month, charged to your account at the beginning of the month. If no mail is forwarded, this charge is refunded to your account at the end of the month. As long as you have a mail forwarding account active, you will be charged for the service only if we actually forward your mail at least once during a calendar month.

Free Email Account:

If you are a *ContractJobHunter* or *Contract Employment Weekly* subscriber who uses email a lot ... this subscriber service will probably be of interest to you. This service is free, as long as you keep your subscription current. Restrictions: Any single document (either sent or received) cannot exceed 500K in size; the total amount of space allotted to any subscriber is 5 megabytes; you may select your own personal email address. We suggest using your name (Example: john.doe@members.cjhunter.com).

Discussion Forums:

Subscribers can leave messages and questions for other subscribers on this board. Discussed subjects have included: Insurance for contractors ... overtime on full rate ... job locations ... pre-employment drug testing ... and lots of contractors looking for old friends.
