Structural Analysis Engineers • Wichita, KS • 6 Mos

• Apply knowledge of structural analysis (e.g., materials technology, finite element modeling, static analysis, fatigue analysis, damage tolerance analysis, thermal analysis, vibration analysis, structural testing, etc.) to determine structural adequacy for customer requirements and regulatory compliance; and to collaborate on structural design, manufacturing, and post-delivery of products.

• The candidate must be proficient in the use of Nastran FEM and CATIA V5 or V6 tools. Proficiency with classical stress analysis techniques is also required. A B.S. degree in an appropriate engineering discipline (aerospace, mechanical, or civil) from an accredited university is required. Knowledge of fatigue and damage tolerance methods in composite analysis is desirable but not required. The candidates are expected to perform as individual contributors, so lead experience is not required, but it's beneficial for Level 4.

Hot Sheet of Available Contractors

Subscribers:

When you're unemployed or if you've received your layoff notice: let the recruiters know you're available with a free Hot Sheet listing. The Hot Sheet includes your job classification, name, contact information, and resume ID. The most effective use of the Hot Sheet is to make sure you have your updated resume as your listing includes a link to your resume. The Hot Sheet consists of two sections: Unemployed Listings and Mini-Ads. You have one free listing per calendar month, if you'd like additional listings during the same calendar month, you can place a Mini-Ad. The cost is \$5 per insertion. Mini-Ads are also for those who are currently employed, but would like to have a listing on the Hot Sheet. Deadline for inclusion on Friday's Hot Sheet is Thursday, 4:00 p.m. (Pacific Coast time).

Want more info on the Hot Sheet – call or email our office, better yet – login and click on the link "Sign up for this week's Hot Sheet!" for more info.

Recruiters:

Are you looking to fill an urgent requirement?? Why not try the Hot Sheet – it's a recruiting tool available to current advertisers. Recruiters can search the last 10 weeks of Hot Sheets to find contractors who are currently available. In addition to the Hot Sheet listing we provide you with a link to the subscriber's resume, along with their contact information. Login to search or view the latest Hot Sheet!!
